SUMMARY

Computer Science graduate (BSc Hons, 2:1, HKMU) seeking a junior software / fullstack / mobile developer role in Hong Kong. Led a full-stack Android hiring platform with ML-based matching, built multilingual Android features at Roborn (Cyberport), and continued to ship projects in Flutter, TypeScript and Python. Eligible to work in Hong Kong without sponsorship. Actively building and shipping personal projects while job searching.

EXPERIENCE

Roborn (Cyberport) — Software Developer Intern

Jul – Aug 2025, Hong Kong

- Built multilingual Android features with real-time translation via a Python API for non-Cantonese-speaking users.
- Implemented search, filtering, and role-based admin tools for large user datasets.
- Integrated third-party APIs for live AI robotics demos at HKCEC under live-event conditions.

PROJECTS

AI-Enhanced Domestic Helper Hiring App — Project Lead & Full-Stack Developer

Sep 2024 – Jun 2025

Final Year Project, HKMU | github.com/singhRamandeep101/Domestic-helper-app

- Led a 4-person team to design and ship a full-stack Android hiring platform (Kotlin, MVVM, Firebase) connecting employers with domestic helpers.
- Owned architecture, real-time chat, booking system and in-app Jitsi video interviews with live translation across 4 languages.
- Built hybrid rule-based + ML matching engine (scikit-learn via Chaquopy) that parses PDF resumes and automatically ranks candidate–employer fits.

SmartWallet HK — Personal Finance App (Flutter)

May – Jun 2026

Personal project | github.com/singhRamandeep101/SmartWallet-HK

- Built an offline-first, bilingual (English / Traditional Chinese) finance tracker in Flutter with Riverpod, Drift/SQLite (amounts stored as integer cents), monthly budgets, custom spending charts, recurring transactions and CSV export.
- Added unit tests for money handling, CSV encoding and recurrence logic, plus GitHub Actions CI running static analysis and tests on every push.

Akhar — Gurmukhi Learning App (TypeScript)

Jul 2026

Personal project | github.com/singhRamandeep101/akhar

- TypeScript web app for learning Gurmukhi script featuring interactive lessons, character tracing and quizzes.

Audiobook — Local PDF/EPUB to Audiobook (Python)

Sep 2026

Personal project | github.com/singhRamandeep101/audio-book

- FastAPI Windows server that converts PDF/EPUB files to on-device Kokoro TTS audiobooks; companion iPhone Safari PWA plays the library over Wi-Fi and supports offline export.

EDUCATION

Hong Kong Metropolitan University

Sep 2021 – Sep 2025

BSc (Honours) Computer Science — Second Class Upper Division (2:1)

ADDITIONAL EXPERIENCE

CreativeGemsLearning — Private Tutor

Oct 2022 – Oct 2023, Hong Kong

- Tutored 4 secondary students in English and maths; planned lessons and tracked progress independently.

TECHNICAL SKILLS

Mobile, Web & Backend: Kotlin (Coroutines), Dart (Flutter), TypeScript, JavaScript, HTML/CSS, Java, Python, FastAPI, Android SDK, Android Studio, Firebase (Auth, Realtime Database, Cloud Messaging), SQLite (Drift), RESTful APIs

ML & Data: scikit-learn, Chaquopy, pdfplumber, Kokoro TTS / ONNX

Practices: MVVM, Riverpod, Git, GitHub Actions (CI), unit testing, Agile, UI/UX design principles

Languages: English (fluent), Hindi (fluent), Punjabi (fluent), Cantonese (conversational)
